Layovers

Written by: Andrew McLeod and Sabine Weber

We are presented with 13 maps. One country in each contains another picture. We eventually notice that the countries and pictures can be linked by "laying over" in another word to create 2 phrases (one of the country and the missing word; another of the missing word and the picture):

Country	Layover	Picture
SWISS	CHEESE	WHEEL
AMERICAN	BEAUTY	QUEEN
AUSTRALIAN	SHEPHERD	MOON
FRENCH	PRESS	RELEASE
RUSSIAN	ROULETTE	WHEEL
INDIAN	SUMMER	CAMP
BELGIAN	WAFFLE	HOUSE
DUTCH	OVEN	MITT
POLISH	SAUSAGE	PARTY
IRISH	COFFEE	BEAN
GERMAN	SHEPHERD	MOON
SWEDISH	FISH	TANK
CANADIAN	TUXEDO	CAT

Each layover word fits in the blanks beneath the picture, and we use the stars to extract "EYE STRANGE SIX". Interpreting this as another layover clue (EYE _____ STRANGE (6)), we get the solution: **DOCTOR**
