Packing List

Written by: Andrew McLeod and Sabine Weber

We are presented with a list of jewelry, each item of which has a specific number of some gemstone. We notice that each answer contains within it the three-letter abbreviation of a different month, and the gemstones in the puzzle are the birthstones of those months:

Answer	Birthstone
JANUS	Garnet
WELCOME TO THE **JUN**GLE	Pearl
JULIET	Ruby
D**AUG**HTER	Peridot
HOR**SEP**OWER	Sapphire
D**OCT**OR	Opal

Extracting a letter from the corresponding answer for each item on the list, using the number of that gemstone as the extraction index, results in the solution: **SHETLAND**
